6369	Rules
6370	Each player chooses 3 booster pack styles between either historic draft booster or standard draft booster.
6371	
6372	A standard booster pack will generate whatever the sets are in the current rotation of the standard format and from those generates 1 basic land, 10 commons, 3 uncommons, and 1 rare or mythic rare.

- 6373
- 6374 A standard draft booster pack will generate whatever the sets are in the current rotation of the standard format and from those generates 10 commons, 4 uncommons, and 1 rare or mythic rare.
- 6375
- 6376 A historic booster pack will generate from any sets and from those generates 1 basic land, 10 commons, 3 uncommons, and 1 rare or mythic rare.
- 6377
- 6378 A historic draft booster pack will generate from any sets and from those generates 10 commons, 4 uncommons, and 1 rare or mythic rare.
- 6379
- 6380 Click the appropriate decision on the booster pack generator to generate 1 booster pack each time clicked. Drag a box around the cards generated to highlight them then press G on the keyboard to group them.
- 6381
- 6382 Repeat this process until all players have 3 packs generated.
- 6383
- 6384 Players will then save the cards as an object to be their Inventory! DO NOT SKIP THIS STEP!
- 6385
- 6386 Players then begin to create a minimum deck including basic lands of 40 cards. Again DO NOT FORGET TO SAVE YOUR INVENTORY!
- 6387
- 6388 You will not be able to edit your deck after this step until you are told that you may do so.
- 6389
- 6390 Once all players have saved their inventory with a starting deck and any extra cards, the Game Board phase now begins.
- 6391
- 6392 From the Unmarked Boards, shuffle and drag one out for it to begin as the starting game board.
- 6393
- 6394 Each board has its own rules and a rule notecard!
- 6395
- 6396 After moving on a game board, you do the tile corresponding deck effect first!
- 6397 After that effect has resolved, then you must use the random encounter generator!
- 6398
- 6399 Players start with 1000 Gold and 10 Mana Link known as life.
- 6400
- 6401 Further instructions will be written soon!
- 6402
- 6403 This game must be used with the generator at the website:

Custom cards, decks, sets, and even boards were made by 9898-MTG with the game scripting done by Amuzet. Scryfall usage is very helpful within the game rules. :)
- 6412

about the mystery card: converted mana cost, color, card type, and the number of words in its name. To do this, they choose and reveal cards one at a time.

When each card is revealed, the Secretkeeper tells the Detective how many of the four facts that card and the mystery card have in common. Then the Detective may either guess the four facts or reveal another card to get more clues.

The Detective gets only one guess, and they must guess all four facts correctly to win. Once the Detective has guessed, the round ends and the players switch roles with a new pack.

TO WIN: Discover all four facts using as few cards as possible. The Detective who guesses correctly using the fewest clue cards wins! If neither player guessed correctly, or if there is a tie, play another round!

Careful Study — Memorization and question game about a card your team chooses (I.E., artist, collector number, P/T)

Careful Study (minigame)

Card

2-6 players | 1 pack | 5 minutes

OBJECTIVE: Take turns memorizing Magic cards and trying to stump your opponent with questions!

GET READY: Split up into two teams of one or more players. Randomly determine which team goes first, and then open a pack and remove any remaining land cards and any cards without Magic card backs. Each team then picks a card and puts it face down on the table without looking at it.

LET'S PLAY: On your turn, your team has 30 seconds to examine your card before handing it over to the opposing team. Then they ask your team five questions about your card. Once you've answered them all, note your score. Now it's your team's turn to ask the questions! Questions can be about anything on the card.

Careful Study (cont'd)

For example:

What's the creature's power?

What's the mana cost?

Who's quoted in the flavor text?

What's the character in the art holding?

Is the character's mouth open?

Who's the artist?

What's the collector number?

What mechanics are mentioned in the card text?

What's the rarity?

Can you see the sun or moon in the art?

Don't ask any questions you can't accurately answer (e.g. how many blades of grass are in the art?).

TO WIN: The team who gets the most questions right wins! If there is a tie, play another round with new cards.

Cyber Simulacrum — Deduce the identity of your cards using only images from the internet.

Cyber Simulacrum

Card

2-6 Players | 1 Pack | 10 Minutes

OBJECTIVE: Sometimes technology is useful, and sometimes it's downright confusing! Deduce the identity of your cards using only images from the internet.

GET READY: Open a booster pack and remove all ad, token, and art cards. Deal one card face down to each player, setting the rest aside. Each player secretly looks at their card, then searches its card name using an internet search engine. Navigate to the first three image results that are not of a Magic card or Magic art, then choose one of those images. If you're unsure if something depicts Magic art, use your best judgment.

Cyber Simulacrum (cont'd)

Card

LET'S PLAY: Once each player has selected an image, place the chosen cards back in with the unchosen cards. Then shuffle all the cards and display them in a face-up grid. Randomly determine a player to reveal their found image first. The other players work together to guess which card in the grid matches that image. Once their final choice is made, the player who chose the image takes that card and places it in front of them. Play continues with the next player revealing their image until all guesses have been made.

TO WIN: After all guesses have been made, each player reveals the correct match for their image. If every card was correctly matched, everyone wins!

Look at Us, We're R&D — Design and illustrate a unique Magic card.

Look at Us, We're R&D

Card

3+ players | 1 pack | 10 min | Pen & Paper

OBJECTIVE:

Magic _Magic_ takes a team!! Work together to design and illustrate a unique _Magic_ card.

GET READY:

Open a booster, remove all non-_Magic_ cards and shuffle the rest. Have one player be an artist and another be a writer, then the remaining players will be designers.

LET'S PLAY:

The designers take turns filling out the different parts of a card with pen and paper. To determine these, they draw a random card from the pack, pick one of the categories, and copy it from the card (if it's missing the category you want, draw another). The designers continue until these are all filled in:

Look at Us, We're R&D (cont'd)

• Casting Cost

• Card Type

• Card Text

• Power & Toughness (if the card has a type that requires it)

Next, the artist draws what they think the card would look like. Finally, the writer gives the card a name and flavor text to bring it all together and finish the card. Rotate roles until everyone has had the chance to be an artist and writer.

TO WIN:

Once each player has had a chance to play each role, present your created cards. Players vote to nominate their favorites for the following categories: most powerful, least functional, and most flavorful.

Magic & Minions — A role-playing minigame with simplified Dungeons & Dragons mechanics. One player is the DM, whose cards are used to set a series of six encounters. The other three players are adventurers, whose cards represent role-playing actions.

Magic and Minions

Card

4 players | 2 packs | 45 minutes | d6

OBJECTIVE:

Use the cards in a booster to inspire your own one-shot adventure!

GET READY:

Pick one player to be the *Dungeon Master* (DM). The DM opens a booster and selects a hand of 6 non-land _Magic_ cards to inspire the adventure. They then open a second booster and deal 4 non-land _Magic_ cards to each of the three other players. These cards represent *actions*. Discard all remaining cards.

Actions: Card color represents the *type* of action, and mana value represents its *power*.

• White = Charisma (coercion, leadership, etc.)

• Blue = Intelligence (investigation, knowledge, arcane lore, etc.)

• Black = Strength (melee attacks, climbing, moving large objects, etc.)

• Red = Dexterity (ranged attacks, dodging, sleight of hand, etc.)

• Green = Wisdom (common sense, intuition, empathy, etc.)

• Colorless = Constitution (running, swimming, resisting disease, etc.)

LET'S PLAY:

First, each player describes

their character based on the most powerful action or actions they have, including a name and backstory. The DM secretly picks a card from their hand to represent the first encounter, using the name and art of the card as inspiration for storytelling. They note the **Difficulty Class** (DC) for the encounter, which is **6 plus the mana value of the card.**

Players use their actions to try to overcome the encounter. One player reveals a card and describes what their character does, using the color, name, and art of the card as inspiration. Then they roll a six-sided die and add the result to the mana value of their chosen action.

If the total is greater than or equal to the DC, the players overcome the encounter, and the DM describes their success! If the total is lower than the DC, the DM describes their failure, and other players may use additional actions, adding their mana value and dice roll to the total until they overcome the encounter.

After the players overcome the encounter, the DM reveals the encounter card and sets up the next encounter using another card from their hand.

TO WIN:

If the players can overcome all six encounters without running out of actions, they win!

Mishra's Manufactory — Build an "invention" from other cards down the conveyor belt.

Mishra's Manufactory

Card

2-4 players | 2-4 packs | 10 min

OBJECTIVE:

Take on the role of one of Mishra's assembly workers and assemble the best invention from the mishmash of parts streaming down the conveyor belt. Strategically collect cards based on their color to win.

GET READY:

Open one booster for each player, remove all cards without *_Magic_* card backs, and shuffle the rest together. Reveal four cards in a row stretching from the deck. These form the **conveyor belt**. The two cards closest to the deck are at the **back of the line** and the other two cards are at the **front**. Randomly determine who goes first.

LET'S PLAY:

On their turn, each player drafts one card from the conveyor belt. The two cards at the front of the line are free, but a player must discard a card they've already collected to draft a card from the back of the line.

line. Cards then slide forward to fill in the gap, and a card from the deck is added to the back of the line. Drafted cards are kept face up in front of each player, grouped by color (including colorless.) Play then passes clockwise.

Lands are wild (they count as any color, including colorless), and a multicolored card can be any of its colors. When you draft a wild or multicolored card, declare its color and place it in the corresponding group.

TO WIN:

The game ends when all cards have been collected. For each color, the player with the largest group of cards of that color gets **3 points**, and the player with the second largest group gets **2 points**. The card with the highest mana value breaks ties. If there is still a tie, each tied player gets half the points, rounded up.

Players also earn points for the number of groups they've collected: four groups = **2 points**, five groups = **4 points**, six groups = **6 points**.

The player with the most points wins!

OBJECTIVE: Match and collect the most treasure chests before someone uncovers the mimics hiding amongst the loot!

GET READY: Open one booster per player and remove any lands and cards without *_Magic_* card backs, and then shuffle them together. Then put **two lands** back into the deck (to represent the mimics) and shuffle. Deal 16 cards face down in a **4x4 grid**. Randomly determine who goes first.

LET'S PLAY:

On your turn, secretly look at **two cards** from the grid. If they share a **color** or **mana value**, you may reveal them, announce what matches and take those cards, then take another turn.

Mimic Match (cont'd)

Card

Otherwise, leave them in place, and the next player takes their turn.

NOTE: Colorless cards can be matched with other colorless cards, but mimics can only be matched with each other.

After a match has been made, replace the empty spaces with two new cards from the deck, face down.

The game ends when a player reveals the two mimics, uncovering them!

TO

WIN:

At the end of the game, each player scores 1 point for every card they collected. The player who uncovered the mimics by matching the two lands scores an additional 2 points. If there is a tie, the player who uncovered the mimics decides who wins!

Monster of the Week — Survive the night by beating the monster (DFC) in your booster!

Monster of the Week

1 player | 1 pack | 5 minutes

OBJECTIVE:

Survive the night by defeating the monster in your booster!

GET READY:

Open a booster and pick a double-faced card (DFC), then set it aside. This is the monster you will face. Discard all ad, token, and art cards. Shuffle the remaining cards into a stack and place it face down to create your library.

LET'S PLAY:

Play a game of Magic against the monster with the following rule modifications:

- You start with zero cards in hand and 20 life.
- At the beginning of your upkeep, create a Treasure token. (It's an artifact with "tap this permanent" {T}, Sacrifice this artifact: Add one mana of any color.)

The monster doesn't have a life total, mana, or library, and it can only be defeated by removing it from the battlefield twice: once on its front side and once on its transformed side.

Monster of the Week (cont'd)

Card

The monster behaves automatically as follows:

- It starts the game on the battlefield on its front side.
- It doesn't attack until it has taken a number of turns equal to its mana value.
- It attacks you on each of its turns after it's able to attack.
- The first time it leaves the battlefield for any reason, return it to the battlefield transformed. It can't transform by any other means. (It now attacks during each of its turns regardless of if it could attack before it transformed.)
- If it leaves the battlefield for any reason while transformed, it is defeated.

Take turns with the monster, performing its actions for it.

Though you cannot attack the monster, you can block with your creatures when it attacks, and you can target it with spells that target any creature or a creature your opponent controls.

You lose if your life total reaches 0 or if you attempt to draw a card from an empty library.

Telepathic Transmission — Order your cards, but without communication.

Telepathic Transmission

Card

2-4 players | 2 packs | 5 minutes

OBJECTIVE:

Order your cards without communicating in this game that puts your telepathy to the test.

GET READY:

Open two booster packs and remove all cards without Magic backs. Shuffle the rest of the cards together and deal them out as evenly as possible to each player. One player then discards a land to begin a central discard pile.

LET'S PLAY:

****Lands**** ♦ ****Other Colorless Cards**** ♦ {w} ♦ {u} ♦ {b} ♦ {r} ♦ {g}

Within each category, order cards by numerically ascending mana value.

A card of the same color and cost can be played on another card of the same color and cost.

Telepathic Transmission (cont'd)

A multicolored card counts as any one of its colors.

There is no turn order. If someone has a card to play in the above sequence, they may play it at any time.

If at any point a player notices the sequence has been broken by a card in their hand, they say "restart" and reveal the card that should have come next in the sequence. Restart the game by shuffling all cards together and dealing them out again. Use your knowledge of Magic and the cards revealed between restarts to successfully complete the sequence.

TO WIN:

The game is over when all cards have been discarded in the correct order. Keep track of the number of restarts—one or fewer is a victory!

Totally Lost in Translation — Ask questions and learn the mystery card.

Totally Lost in Translation

Card

2-6 players | 3 packs | 15 minutes | d20

OBJECTIVE:

Work together to score as many points as possible by deciphering your teammates' clues and correctly guessing the mystery card.

GET READY:

Open three boosters and remove any cards without Magic card backs. Shuffle the remaining cards into a face down deck. Randomly determine who goes first—that player is the **Interpreter**.

LET'S PLAY:

The interpreter draws a **mystery card** from the top of the deck, rolls a d20, and then gives a clue determined by the result of their roll (see opposite side of card). The Interpreter then draws five more cards from the deck, shuffles them together with the mystery card, and then reveals them. The other players collectively guess which of the six cards is the mystery card. If they guess correctly, all players score 1 point as a team. After guessing, the round ends and the Interpreter puts the used cards in a discard pile. If the deck runs out of cards, shuffle the discard pile to create a new deck.

The Interpreter role then passes to the next player. The game ends after six rounds.
